## Posted for 20-Day Public Review:

The following new or revised IAPMO Industry Standards were posted on the website for 20-Day Public Review (Webpage Link: [20DayPublicReview](#)).

Standard Designation	Title	Comments Due By
<a href="#">IAPMO IGC 162-2018</a>	Special Fitting with Strainer for Water Closet Fill Valve	2018-11-05
<a href="#">IAPMO IGC 330-2018</a>	Recirculating Shower Systems	2018-11-05
<a href="#">IAPMO IGC 351-2018a<sup>e1</sup></a>	Applied in Place Pipe Rehabilitation (AIPPR) Systems	2018-11-05
<a href="#">IAPMO IGC 353-2018</a>	Branch Connectors	2018-11-05

## Reinstatement of IAPMO Standards

The following standard was reinstated:

- (a) **IAPMO IGC 162-2000 (R2013)** "Special Fitting with Strainer for Water Closet Fill Valve"

## Withdrawn Standards

The following standards were discussed for withdrawal:

**None**

## Additional Updates:

The following standards have been withdrawn as an ORD in Canada:

- (a) IAPMO ORD IGC 290 – 2012<sup>e1</sup> "Bedpan Liner Macerators"  
(b) IAPMO ORD IGC 291 – 2013 "Flexible Fittings for Connecting Water Closets and Urinals to the Drainage System"  
(c) IAPMO SPS 5 – 2006 "Water or Air Jet Fittings"

**Note:** During a review for renewal of IGC 290, IGC 291 and SPS 5 as ORD's in Canada it was noted that these standards are no longer used for products evaluated in accordance with the National Plumbing Code of Canada. As a result, there is no need for these standards to be an ORD in Canada. IAPMO will continue to maintain IAPMO IGC 290, IGC 291 and SPS 5 as industry standards. However, IAPMO IGC 290, IGC 291 and SPS 5 have been withdrawn as ORD's in Canada.

If you have any questions or comments regarding the information in this notice, or if you would like to be added or removed from the contacts list for receipt of this monthly update, send a message to the general standards email address ([standards@iapmostandards.org](mailto:standards@iapmostandards.org)), or call me at the number below.
